California Proposition 65 OEHHA COMPLIANCE STATEMENT

Proposition 65 (Safe Drinking Water and Toxic Enforcement Act of 1986) is a Californian law that requires businesses to notify Californians about significant chemicals that cause cancer or birth defects or other reproductive harm. The law requires that no person doing business, knowingly and intentionally expose an individual to a chemical known to the state of California to cause cancer, birth defects, or reproductive toxicity without first giving a clear and reasonable warning. The Prop 65 list can be accessed at <http://www.oehha.ca.gov/prop65>.

As requested by law, a warning must be given for listed chemicals unless the exposure is low enough to pose no significant risk of cancer.

The products from E-tec Interconnect AG contain one or more of the listed chemicals in Proposition 65. These products are placed inside installation or devices and under normal conditions of use are not accessible to their end users. Consequently, E-tec Interconnect AG is not required to put a warning label that products contain compounds that may cause cancer, birth defects, or reproductive harm.

However, during destructive decomposition (recycling process), our products may contain and release trace amounts of lead (Pb), Beryllium (Be), Nickel (Ni), Cobalt (Co) and other California Proposition 65 substances known to the state of California to cause cancer and/or birth defects or other reproductive harm. To reduce risk of exposure, work with approved safety equipment in a well-ventilated area, wear dust masks that are specially designed to filter out microscopic particles, wear protective gloves and wash hands after handling. For more information go to www.P65Warnings.ca.gov

All information provided in this Certificate of Compliance is accurate, to the best of our knowledge, as of the date this certification was issued.

Authorized Signature:

A handwritten signature in blue ink, appearing to read "P. Rodriguez", is written over a horizontal line.
